EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

Claim 8, line 1, delete "9" and insert -- 7 --.

Summary: The above change was made to correct an obvious error.

2. The following is an **examiner's statement of reasons for allowance**: The closest prior art with respect to the core (with the difference in expansion properties) is the patent to Schaefer et al (USP 6,237,736). This intent of this patent is to intentionally provide bristles which will bend while the brush is used (upon exposure to water or the application of heat (column 5, line 61 thru column 6, line 10)). Although the provision of an outer layer or sheath is known per se, the patent to Schaefer teaches against and provision of such to the filament in '736 would essentially destroy the reference. With regard to the fiber of Ejima et al (USP 4,840,846), the core materials are comprised of a known non-absorbent material (polypropylene; eg, column 1, line 63 thru column 2, line 36) and that one of ordinary skill would not expect the fiber thereof to have the properties and function as the claimed filament.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3723

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
